

We Need You Now More Than Ever

We live in challenging times, both nationally and locally, that are impacting the lives of so many in the Greenbrier Valley. We need your support now, more than ever. Here are just a few reasons why....

Last year the Warming Hands & Hearts Coalition assisted 417 families with \$65,891 for emergency home heating. One-third of that came from *your* United Way. We need to continue helping these families in need!

Over the past two years, the number of home delivered meals has increased by 57%, and the number of meals served in senior centers has increased by 18%. We need to take care of our older citizens!

Thirty-two local agencies in Greenbrier, Monroe, and Pocahontas Counties depend on United Way funding to supplement programs and services that nurture our children, promote positive youth development, respond to crisis, protect our health, and strengthen our families.

By focusing on the greatest needs, we make an impact on what matters right here at home - the bottom line results, the lives we change, and the communities we shape.
